Address

Manchester, United Kingdom

Education

2020-2023

BSc(Hons) Software Engineering

Manchester Metropolitan University

2:1

2018- 2020

Loreto College

IT (Distinction*)

Business (C)

Sociology (B)

Skills

Languages

- JavaScript, HTML, CSS, Java, PHP, MySQL

Frameworks

- React, Bootstrap

Developer Tools

- Git/Github, AWS, Postman, Visual Studio Code

Soft Skills

- Problem Solving
- Cross-team collaboration
- Adaptability
- Communication
- Project Management

Software Engineer

Omar Jeylani

A motivated **Software Developer** experienced in working with a variety of different people, I'm seeking a **long-term opportunity** that values my problem-solving skills, encourages learning, and fosters growth, with the aspiration of **advancing within the organisation** and making a significant impact.

Experience

2023-2024

Arden Insurance | London

Junior Software Engineer

- Developed and implemented a dynamic form using Vue.js featuring conditional display of information based on user inputs. This enhanced user experience.
- Ensured smooth user interaction with real-time input validation and improved overall usability by minimising unnecessary fields and steps.
- Collaborated in agile environments, ensuring continuous delivery through regular development cycles, sprint planning, and daily stand-ups to improve project efficiency.

2022

Fanatics UK | Manchester

Internship

- Engaged in a hands-on sandwich placement program within the IT Department, sparking a profound interest in technology.
- Acquired pivotal insights by observing and collaborating with seasoned tech professionals.
- Enhanced understanding and practical knowledge about the dynamics and best practices of the tech industry.

2020-2023

Manchester Metropolitan University

Software Engineer Graduate

Relevant Coursework: Enterprise Programming, Advanced Programming, Database Systems, Programming Languages & SE Frameworks. Advanced Web Development, Individual Project (Dissertation)

- Acquired hands-on skills in advanced programming, web development, and enterprise-level software solutions.
- Gained expertise in database systems, effectively leveraging various programming languages and engineering frameworks for robust software design.
- Spearheaded and successfully completed an individual dissertation project, demonstrating end-to-end project management and execution.

Projects

Cardiomyopathy Website | Vue.JS, AWS, Firebase

Collaborated with a team of 4 to develop a web app aimed at providing general information and analysing experimental data on cardiomyopathy.

Film Database Web App | MySQL, JavaScript, API

Developed a film database web application with full CRUD functionality, leveraging RESTful web services to exchange data in JSON formats.
